Investment Objective

Each Plan under the Scheme will endeavour to generate regular income through investments in Debt and Money Market Instruments.

Instrument	Normal allocation (% of total assets)	
	Minimum	Maximum
Debt (including government securities,) floating rate debt instruments and securitized debt*) and Money market instruments	0%	100%

* Investment in Securitized Debt not to exceeds 50% of the Net Assets of the Scheme.

The scheme does not intend to invest in ADRs/GDRs or foreign securities. Investments in Derivative instruments will be permitted subject to a maximum limit of 50% of the net assets of the scheme. The gross investment in securities under the scheme, which includes debt securities, money market instruments including floating rate debt instruments and securitized debt and gross exposure to derivatives will not exceed 100% of the net assets of the scheme.

Pending deployment of funds as per the investment objective of the Scheme, the funds may be parked in short term deposits of the Scheduled Commercial Banks, subject to guidelines and limits specified by SEBI. The Scheme may also participate in securities lending to augment its income. Securities lending in the scheme will be in accordance with the guidelines on securities lending and borrowing scheme issued by SEBI from time to time.

It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the AMC, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the asset allocation pattern will be for short term and defensive considerations. In the event of asset allocation falling outside the limits specified in the asset allocation table, the fund manager will endeavor to review and rebalance the same within 30 days. Though every endeavor will be made to achieve the objectives of the Scheme, the AMC/Sponsors/Trustees do not guarantee that the investment objectives of the Scheme will be achieved.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

1. The Trustees, AMC, Fund, their directors or their employees shall not be liable for

any tax consequences that may arise in the event that the scheme is wound up for the reasons and in the manner provided under the Scheme Information Document & Statement of Additional Information.

- IDBI Fixed Maturity Plan - IDBI FMP 90 Days Series I, IDBI FMP 367 Days Series I, IDBI FMP 395 Days Series I - will seek to invest in credit instruments, Government Securities, securitized debt, debt derivatives and money market instruments. Trading volumes and settlement periods may inherently restrict the liquidity of the scheme's investments which may impact the Scheme's ability to capitalize on investment opportunities resulting in lower than anticipated performance for the Scheme.
- Different types of securities in which the Scheme/Plans would invest as given in the SID carry different levels of risk. Accordingly the Scheme's/Plan's risk may increase or decrease depending upon the investment pattern. For e.g. corporate bonds carry a higher amount of risk than Government Securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risk than bonds, which are AA rated.
- The Mutual Fund is not assuring any dividend nor is it assuring that it will make any dividend distributions. All dividend distributions are subject to the availability of distributable surplus and would depend on the performance of the scheme and will be at the discretion of the AMC.
- Since the scheme is a close ended scheme, investors will have to necessarily trade in the stock Exchange platform, in case they wish to liquidate their units before maturity date of the respective maturity plans. Transactions in close ended units of mutual funds in the stock Exchange platform are subject to illiquidity risk.
- Risks associated with investments in bonds**
 - Credit risk:** This risk arises due to any uncertainty in counterparty's ability or willingness to meet its contractual obligations.
 - Interest Rate risk:** This risk is associated with movements in interest rate. The values of investments will appreciate/depreciate if the interest rates fall/rise.
 - Liquidity risk:** The liquidity of a bond may change depending on market conditions. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
 - Reinvestment risk:** This risk arises from uncertainty in the rate at which cash flows from an investment may be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received.
- Risks associated with Investing in Derivatives**
Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies

Key Information Memorandum and Application Form (Cont'd...)

depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

There are certain risks inherent in derivatives. These are

- i. **Price Risk:** Despite the risk mitigation provided by various derivative instruments, there remains an inherent price risk which may result in losses exceeding actual underlying.
- ii. **Default Risk:** This is the risk that losses will be incurred due to default by counter party.
- iii. **Basis Risk:** This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged.
- iv. **Limitations on upside:** Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- v. **Liquidity risk** pertains to how saleable a security is in the market.

8. Risks associated with investing in Securitized Debt

Securitized Debt is a financial instrument (bond) whose interest and principal payments are backed by an underlying cash flow from another asset. The risks associated with investing in such instruments are:

Limited Recourse: The instruments represent an undivided beneficial interest in the underlying receivables and do not represent an obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the buyer of the security against the Investors' Representative.

Delinquency and Credit Risk: Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Monthly Investor Payouts to the Holders may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Servicer may repossess and sell the Vehicle/ Asset. However many factors may affect, delay or prevent the repossession of such Vehicle/Asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such Vehicle/Asset may be sold may be lower than the amount due from that Obligor.

Risks due to possible prepayments: Full prepayment of a contract may lead to an event in which investors may be exposed to changes in tenor and yield.

Bankruptcy of the Originator or Seller: If the service provider becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that either the sale from each Originator was not a sale then an Investor could experience losses or delays in the payments due under the instrument.

Liquidity risk: There is no assurance that a deep secondary market will develop for the instrument. This could limit the ability of the investor to resell them.

9. Risks associated with Short Selling and Securities Lending

Short Selling: When the Fund engages in short selling, it will borrow the security from a third party with the understanding that the security will be returned at a later date as and when required by the lender. However, there is a risk that the stock price may go up contrary to expectations which will result in losses to the Scheme. The losses will be realized to the Scheme if the Scheme may be forced to buy the shares in the market at the prevailing higher market price (than the price at which sold initially) to return the security to the lender if so required by the lender

10. **Securities lending:** There are risks inherent to securities lending, including the risk of failure or bankruptcy of the counter party, leading to non-compliance with the terms of the agreement by the counterparty. Such failure can result in the possible loss of rights to the collateral, the inability of the counterparty to return the securities deposited by the lender and the possible loss of any corporate benefits accruing thereon.

All successful applicants will be allotted with units in dematerialized form to the depository account of the applicant.

Listing and trading: Since the scheme is closed-ended, the Mutual Fund will not be providing redemption facility except on the maturity date. It is the intent of the scheme to list the units in National Stock Exchange of India Ltd and will be available for trading subject to liquidity. The concerned stock Exchange will issue a circular for the notice of the public once the listing process is completed. An applicant in a close ended scheme whose application has been accepted shall have the option either to receive the statement of accounts or to hold units in dematerialized form. Successful applicants will receive a statement of accounts specifying the number of units allotted to the applicant. In case the applicant has opted for dematerialized units the units will be credited to the depository account of the unit holders within five business days from the date of closure of the initial subscription list. If the investor request for dematerialization of physical units under this scheme, dematerialized units will be issued within two business days of the receipt of request from the unit holder. A unit holder, in a close ended scheme listed on a recognized stock exchange, who desires to trade in units shall hold units in dematerialized form. For trading in the stock Exchange, investors will have to approach a trading member/broker registered in the Exchange and open an account with them after completing the required documentation. Where investor desires to hold units in dematerialised form, the KYC performed by DP in terms of SEBI Circular MRD/DoP/Dep/Cir-29/2004 dated August 24, 2004 and this would be considered compliance with applicable requirements specified in this regard in terms of SEBI Circular ISD/AML/CIR-1/2008 dated December 19, 2008 by mutual funds /AMCs. Where investor desires to hold units in dematerialised form, demat statement given by depository participant would be deemed to be adequate compliance with requirements prescribed under regulation 36 of SEBI (Mutual Fund) Regulations, 1996, and SEBI Circulars MFD/CIR/9/120/2000 dated November 24, 2000 and IMD/CIR/12/80083/2006 dated November 20, 2006 regarding despatch of statements of account.

Demat: Investors have the option to hold units in dematerialized mode and the units are freely transferable. For holding units in dematerialized mode, investors should have a Depository account in their name. If the investor select the depository mode for receiving units, no separate KYC needs to be complied. Investors can select the option of receiving units in dematerialized mode at the time of subscription of units in the application form and in that case the units will be credited to the depository account of the investor. The statement of account issued by the depository participant will be sufficient and no separate statement of account indicating crediting of units by the mutual fund is required for proving allotment of units in the name of the unit holder. For redemption, investors will have to submit duly filled up delivery instruction slip to his concerned depository participant and an acknowledgement for the same along with application for redemption is required to be submitted at the POS. Investors have the responsibility in ensuring transfer of units to the designated pool account of the Mutual fund maintained with the registrar for redemption of units.

5 - E-mail Communication

Account Statements / Newsletters / Annual Reports / Other statutory information (as may be permitted under SEBI (Mutual Funds) Regulations, 1996) can be sent to each Unit holder by courier / post / e-mail. Unit holders who have opted to receive these documents by e-mail will be required to download and print the documents after receiving e-mail from the Mutual Fund. Should the Unit holder experience any difficulty in accessing the electronically delivered documents, the Unit holder shall promptly advise the Mutual Fund to enable the Mutual Fund to make the delivery through alternate means. It is deemed that the Unit holder is aware of all security risks including possible third party interception of the documents and contents of the documents becoming known to third parties. The Newsletter shall be displayed at the website of the Mutual Fund. The Unit holders can request for a copy of the Newsletter by post / e-mail. The AMC would arrange to dispatch these documents to the concerned Unit holder.

6 - Mode of Payment of Redemption/ Dividend Proceeds-via Direct Credit / RTGS or NEFT/ ECS

● **Direct Credit:-** The AMC has entered into arrangements with IDBI Bank and HDFC Bank to facilitate direct credit of redemption and dividend proceeds (if any) into the bank account of the respective Unit holders maintained with any of these

banks. The list of banks is subject to change from time to time.

- **Real Time Gross Settlement (RTGS) and National Electronic Funds Transfer (NEFT):** The AMC provides the facility of RTGS & NEFT offered by Reserve Bank of India (RBI), which aims to provide credit of redemption and dividend payouts (if any) directly into the bank account of the Unit holder maintained with the banks (participating in the NEFT System). Unit holders can check the list of banks participating in the NEFT System from the RBI website i.e. www.rbi.org.in or contact any of our Investor Service Centres. However, in the event of the name of Unit holder's bank not appearing in the 'List of Banks participating in RTGS & NEFT' updated on RBI website, from time to time, the instructions of the Unit holder for remittance of redemption/ dividend (if any) proceeds via NEFT System will be discontinued by IDBI Mutual Fund without prior notice to the Unit holder and the payouts of redemption / dividend (if any) proceeds shall be effected by sending the Unit holder(s) a cheque / demand draft. For more details on NEFT or for frequently asked questions (FAQs) on RTGS and NEFT, Unit holders are advised to visit the RBI website.
- **Electronic Clearing Service (ECS):** Investors who have opted for the ECS facility of RBI for dividend payment will receive a direct credit of the amount due to them in their mandated account whenever the payment is made through ECS. A separate advice regarding credit of amount(s) via ECS will be sent to the unit holder. It should be noted that while the Mutual Fund will make all efforts, there is no commitment that this facility will be made available to all desirous investors. Applicants in cities not covered under ECS facility will receive dividend payments, if any by cheques or demand drafts and the same will be mailed to the Unitholders. Please note that the ECS Facility is available only in respect of dividend payments and not in the case of Redemption of Units. Therefore, the Investors will receive their redemption / dividend proceeds (if any) directly into their bank accounts in the following order:
 - (i) In case the bank account of an investor is covered under Direct Credit facility then the payment of redemption / dividend proceeds (if any) will happen via direct credit payout mode only. Investors having these bank accounts will not receive payouts via NEFT/ECS*
 - (ii) In case the bank account of an investor is not covered under Direct Credit facility but covered under NEFT system offered by the RBI then the payment of redemption (maturity) / dividend proceeds (if any) shall be effected via NEFT mechanism only.
 - (iii) The facility for payment of dividend proceeds, if any via ECS* shall be affected only in case the bank account of an investor is not covered under the Direct Credit facility or NEFT system.

* available only in respect of dividend payments.

Each of the above facilities aims to provide direct credit of the redemption proceeds and dividend payouts (if any) into the bank account (as furnished in Application Form) of the Unit holder and eliminates the time lag between despatch of the cheque, its receipt by the Unit holders and the need to personally bank the instrument and await subsequent credit to the Unit holders account. Further, the potential risk of loss of instruments in transit through courier / post is also eliminated. Each of the said facility as a mode of payment is faster, safer and reliable. In case the bank account as communicated by the Unit holder is with any of the said banks with whom the AMC has entered into arrangements to facilitate such direct credits or with any of the banks participating in the NEFT System offered by RBI, the AMC shall automatically extend this facility to the Unit holders. IDBI Mutual Fund shall not be held liable for any losses / claims, etc. arising on account of processing the direct credit or credit via NEFT / ECS of redemption / dividend proceeds on the basis of Bank Account details as provided by the unit holder in the Application Form. The AMC would then ensure that the payouts are effected by sending the Unit holders a cheque / demand draft. In case of unforeseen circumstances, the Mutual Fund reserves the right to issue a cheque / demand draft.
