## IDBI EQUITY ADVANTAGE FUND

An open ended equity linked saving scheme with a statutory lock in of 3 years and tax benefit

September 2021

### What is IDBI Equity Advantage Fund?

- An open ended Equity Linked Saving Scheme (ELSS)
- Offers tax benefits under Section 80C of Income Tax Act, 1961
- Investor can invest up to Rs.1.5 lakhs in the Scheme to avail the tax benefits
- Scheme invests across sectors without any market capitalization bias

### Advantages of investing in IDBI Equity Advantage Fund

- **Lowest lock in Period than Traditional Tax Saving Instruments** - Lock-in period in ELSS (3 years) is lower than traditional tax saving instruments like PPF, National Savings Certificate, and Bank Fixed Deposits offering tax benefits.
- **Offers dual advantage** - As the Scheme invests in quality stocks across market caps without any sector bias, it provides an opportunity to its investors for capital appreciation along with the benefit of income tax deduction on their investment.
- **Benefits of lock-in period** - Investment under the Scheme is subject to lock in period of 3 years. Due to this lock in period, there is no near term pressure of redemption on Fund Manager (FM). This helps FM to select the stocks with long term investment horizon and create long term wealth ignoring short term volatility.
- **Systematic Tax Planning** - Scheme offers Systematic Investment Plan (SIP) Route for investments. Rather than waiting till March every year for tax planning, one can invest amount as low as Rs.500 every month through SIP. SIP offers benefit of rupee cost averaging and there is no need to time the market if one invests through SIP. This helps investors to avoid hasty decision for Tax Planning and its long term repercussions.
